THE MATTRESS EXPERTS

Natural Bamboo

Bamboo yarn is made of 100% bamboo pulp fibre. This wholly biodegradable and renewable natural product is fast becoming the most eco-friendly material of the 21st century. Bamboos antibacterial and superior permeability properties find their origin in nature; this is why Bamboo thrives naturally without the use of pesticides or other chemical substances. A constant antibiosis in Bamboo and bamboo yarn yields a unique resistance to pests, bacteria and fungi, making it ideal for allergy sufferers.

Soft Bamboo yarns natural bactericidal and fungicidal defences act as natures own deodorant, keeping your Natures Touch mattress as fresh as new giving you the sleep you deserve.

Opulent Wool Cashmere and Silk

The pureness of wool, cashmere and silk has stood the test of time for its natural softness and breathability, from the earliest civilisation thousands of years ago to modern-day life in the 21st century.

Opulent Wool, Cashmere and Silk is ideal for Australia's sub-tropical climate, as its unique properties keep you cool in summer and warm in winter with the added appeal of being soft and lightweight. Natures Touch luxurious wool, cashmere and silk fill is the core to a uniquely soft and healthier slumber.

The essential beauty of wool, cashmere and silk is that it breathes with you, giving you the sleep you deserve.

Pure Latex

Known for its lasting durability and high elasticity, natural latex offers a luxurious soft feel that moulds to your body to relieve pressure and deliver a comfortable nights sleep. This continuous pressure relief promotes a deep restorative sleep revitalizing your body.

Natures Touch utilizes this gift from nature in everyone of our Pocketed Coil models, offering unbridled support and comfort. Latex offers a dynamic ability to conform to every curve of your body, whilst delivering gentle support, giving you the sleep you deserve.

Pocketed Spring Support System

Computer designed 6" high profile pocketed springs are pre-compressed and inserted into individual premium fabric pockets which are designed to flex independently of each other. This feature creates a support system that helps eliminate partner and motion transfer for a more peaceful, uninterrupted night's sleep. As a result, Natures Touch products are highly sensitive and responsive to individual body weights and shapes providing luxurious conformance and support.

Three Zones of Foam Encased Support

Three strategically placed support zones provide optimal balanced support from head to toe. The centre zone configuration of a 2.0 gauge offers enhanced support where it's needed most, whilst offering maximum support.

Perimeter Foam Encasement

Our support systems are surrounded by high density foam to increase the usable sleep surface by up to 15% and prevent edge sagging, whilst offering a firm edge support.

Individual Support and Comfort with Luxury
